Your gift will help Proving Ground Farm grow.

Proving Ground Farm, in Adams Township, is a beautiful functioning farm with livestock, trails, ponds, wetlands, and 80 acres of cropland. The farm is open to the public to enjoy for hiking, fishing, dog walking and more and also hosts events to help local farmers, school kids, and homeowners learn more about the natural resources that surround them. It is available to rent for private parties or events.

DEMONSTRATION AND PRACTICAL RESEARCH

No PowerPoints. No smarty scientists.

We don't tell farmers what to do on their farms, but we do show them options for keeping their soil and fertilizer on their fields.

They learn about ways to help keep clean water for everyone and make their farms more profitable.

FIELD TRIPS FOR KIDS

No boring lectures. No worksheets.

We let curious kids explore around the farm, ponds, and woods discovering the things that they love and want to learn more about from our team.

FUN WORKSHOPS AND HELPFUL SERIES

No pre-recorded videos. No computer screens.

We bring in real people to share their skills, passion, and expertise and gather guests who want to do more for the environment and community.

NATURAL SPACE AND PACE

No traffic. No rushing to be busy.

We let visitors walk the trails and watch the turtles in the pond to quiet their minds and relax from work.

You will feel the peace and bliss, too. The farm is open from dawn until dusk every day of the week.

Will you choose to donate to the farm so there will be more...
